

The FAA Safety Team presents:

# **Flight In the Danger Zone Non Towered Airport Operations**

WINGS Over Edenton 2016 Fly-In. Antique Airplanes and fun activities. Attend FAA Seminar Titled Operations at Non-towered Airports. All pilots are well aware that non-towered operations can be a high-risk mixing bowl of jets, turbo-props, single engine trainers, and light sport aircraft. Communications are optional. Learn what you can do to improve your safety and others in the pattern with you. Volunteer to participate in a traffic pattern skit that gets everyone in the room involved. Lots of laughs, knee slapping events, and jaw dropping lessons. You may very well see yourself in many of the traffic pattern conflicts that occur during this scenario based event. This presentation has been performed in numerous locations around the state with much success. Register Today; Seating is limited!

**Directions:** Please see map link. Safety Seminar will be conducted in the airport terminal building. Aircraft parking on ramp area.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
